APPLICATION FOR PERMIT TO CROSS COUNTY ROAD TO CONSTRUCT PIPELINE OR UTILITY

FILED FOR RECORD

0000000000 MM.

THE STATE OF TEXAS
COUNTY OF JACK

FEB 10 2015

NOW COMES - Mohican Exploration LLC, hereinafter referred to as the Company, and respectfully makes this application to the Commissioners Court of Jack County, Texas, to grant unto the Company authorization to lay a pipeline or place a utility across and under the public roads of the County of Jack, State of Texas, conditioned as follows:

1. That said Company, in consideration for the grant by said County, does hereby agree that said pipeline/utility of the following description, crossing a county road in Precinct - 3, Jack County, Texas, at a point hereinafter indicated, will be constructed in such a manner that the construction of same will not interfere with public travel, and that no construction will begin until the Commissioner of said precinct, his agents, or employee approves said location by an on-site inspection.

DESCRIPTION AND LOCATION (Map must be attached. Aerial photos are not acceptable. Location should include GPS coordinates of crossing.):

Rd. Crossing across Eason Rd., Act. #3, Jack County. N33°5'20.5116" W 98°15'55.2492"

2. The Company assures the County that it has obtained authorization, if any is required, from any landowners adjoining the crossing to cross whatever portion of their land, if any, lies beneath the roadway.
3. Such pipeline/utility shall be encased, so buried, covered, constructed and maintained as not to interfere with the use and occupancy of such roads by the public or the County. That a pipeline shall be buried to the depth of at least three (3) feet below the surface of the borrow ditch, that the pipeline/utility shall be situated no closer than three (3) feet from the edge of the roadway, and that the road will be restored at the time of construction to its original condition.
4. In the event it becomes necessary to build a Farm-to-Market Road or other road across such roads, it will become the duty of said the Company to adjust its pipeline with such construction without compensation from the County.
5. If said crossing is accomplished by crossing the traveled portion of said road, then the Company agrees it shall, that at its expense, bore under the road as its means of crossing and not cut or trench said road for a crossing. Said boring shall be at a depth of at least three (3) feet below the depth of the borrow ditch.
6. The Company shall fill and level ditches using appropriate fill material or gravel so as to return the road and/or borrow ditch in same condition as before construction so far as possible. Company shall remove any large rocks unearthed at construction at its expense.

7. The Company shall pay, at the time of application, the sum of \$500.00 for each crossing unto the Treasurer of Jack County, Texas. In the event that the permit is not granted, the application fee will be returned.

8. Said access herein granted may be assigned by the Company without further grant or procedure but grantee shall be bound by the same conditions.

9. In the event that the Company abandons its line, the Company shall remove its line from the roadway and this grant is vacated.

10. The Company is responsible to present this application to the Commissioner of the Precinct involved and obtain his signature evidencing the fact that he has seen the application and discussed the location with the Company. The Company shall then present the Application with the appropriate check to the County Judge's Office to then make arrangements for placing the matter on the Commissioners Court Agenda for approval.

11. The Company shall call the County Commissioner 48 hours prior to starting the actual work.

Extension of Chapter 313 of the Texas Tax Code

WHEREAS, Chapter 313 of the Texas Tax Code, the Texas Economic Development Act, has benefitted many Texas counties and school districts by helping to establish wind energy generation as a significant economic development industry in Texas; and

WHEREAS, many Texas counties also possess solar and geothermal resources that fall within the definition of "Renewable Energy Electric Generation;" and

WHEREAS, the job creation by renewable industries is well suited to rural communities that lack the infrastructure capability to support a large work force, but benefit significantly economically by the capital investment created by renewable industry projects; and

WHEREAS, there are several bills concerning Chapter 313 of the Texas Tax Code that will be considered by the 84th Legislature; and

WHEREAS, it is of the utmost importance that this economic development tool remain available to the rural communities of Texas; and

WHEREAS, it is imperative that local school districts continue to have local discretion in approving projects;

NOW, THEREFORE, BE IT RESOLVED that the County Judges and Commissioners Association of Texas supports the extension of Chapter 313 of the Texas Tax Code and its inclusion of Renewable Energy Electric Generation; and

BE IT FURTHER RESOLVED that we support increased tax benefit to the local school district and continuation of local decision-making power to approve projects, and urge the State Legislature to show its support of rural Texas communities by only passing bills that include all of the above-stated positions.

	Initiated a new CHC project

PAGE 26: Project Description #1 (of 3) for CHC work from 2014

Q52: Project Description #1---Expand upon your answers to question 51 about improving your CHC during the 2014 year of service. Describe the efforts made to improve an aspect of your CHC. Include the following: -- your county name;-- the specific area of improvement;-- why the improvement effort was made;-- what actions were taken to make improvements; and-- the results of those actions. Successful efforts are preferred but your efforts may not have immediate or fruitful results. Regardless of degree of success, use this answer to document your ability to evaluate CHC work, explore ways to be more effective, and learn from the results. If you were not able to make improvements in 2014, document your challenges and what improvements you'd make if you had the time, manpower, or money required.

The Jack CHC initiated a new project this year to expand its outreach to school children within the county. This project included the development of a DVD with photographs of historic sites within the county. These photos were synchronized with the verbal narratives which were used in our Annual Driving Tours. These DVD's will be provided to all 4th Grade History teachers within Jack County.

The Jack CHC expanded its membership to include a new membership level – Associate Member. These members would be people not residing within Jack County but that had a significant interest in the history of Jack County. They were expected to attend all meetings of the JCHC and would have the same privileges of membership except that of holding office and voting. They would not be included when determining a quorum for a JCHC meeting.

The JCHC joined the Jacksboro Chamber of Commerce this year. It was determined that membership within this organization would allow us to share our message and activities within the community.

PAGE 27: Project Description #2 (of 3) for CHC work from 2014

Q53: Project Description #2---Expand upon your CHC's contribution to heritage tourism efforts in your region. Refer to question 35 for heritage tourism examples. Highlight your most effective heritage tourism effort in 2014:-- your county name;-- describe event and your role in it;-- partners and community involvement in planning and/or implementation; and-- impact of the event (attendance, participation, profit, etc.)

The Jack CHC conducted its 3rd Annual Driving Tour this year and partnered with the County Commissioners, local businesses, the Chamber of Commerce and the Jack County Museum. The County Commissioners and local businesses provided funding for the Driving Tour which covered various expenses associated with the event; i.e. brochures and copies of the narrative CD which described the various locations. The Chamber of Commerce and the Museum have continued to stock and sell the CD's for the tour which raises additional revenue for the Commission. Without the assistance of those mentioned above the Driving Tour project would not have been possible. The partnerships' goal was to promote tourism within the county and again to make the public aware of the many historical sites within Jack County. Personal Thank You Notes were written to each individual entity as well as an overall Thank You which was published in the local newspaper. Additionally, copies of the CD were provided to each of our private land owners and our sponsors.

Even though the weather the day of the event was cool and wet – the attendance at this year's event was the largest we had experienced over the 3 year period.

PAGE 28: Project Description #3 (of 3) for CHC work from 2014

Q54: Project Description #3---Share a project, effort, or service that shows the best of how your CHC interacts with the public. Please include your county name in the answer. Project, effort, or service must adhere to the following requirements:-- its primary association is with history/preservation; -- it has broad CHC appointee support (rather than the participation of only 1 or 2 people); and-- is an ongoing effort or one that was completed in 2014.

This year the Jack CHC conducted its first Oral History interview with one of the prominent historians within North Central Texas. Mr. Jack Loftin agreed to an interview with the JCHC which turned out to be an exemplary event. Mr. Loftin agreed to a video interview at his home to discuss questions that the JCHC had about certain events that occurred within Jack County. He has spent a lifetime exploring the rich history of Jack, Young, Archer and Wise Counties. He has documented his research in a volume of history entitled "Trails Through Archer – A Centennial History". He has personally carved markers which memorialize the occurrence at that site. Copies of the interview are located at the Jack County Museum.

Additionally, copies of previous CD narratives of JCHC Driving Tour were provided to prospective land owners who we are working with in an effort to use their property for future driving tours.

PAGE 29: CHC Comments for the THC

Q55: Please let us know more about your preservation successes and/or challenges.

During 2014 the Jack CHC met with a well known and established benevolent organization at the Jack County Courthouse. The objective of this meeting was to discuss the requirements necessary to apply for a preservation grant. This grant, if awarded, would be used to preserve Commissioner Court records dating back to 1857 (which was the original formation date for Jack County). There is a significant amount of effort to develop a 'winning' proposal for this possible grant. Our hope had been to submit this proposal in 2014 but the data and information required (forma constructionl bids etc) for this grant was more formidable than originally thought.

Metal Roof Repair

DESCRIPTION	QNTY	REMOVE	REPLACE	TOTAL
At front right of main building: Open hems at end of panel so that the panel can be returned to the extended eave flashing. Install 3 screws per panel at eave location. Screw through panel and into the extended eave and into the deck flange of the gutter with a metal to metal LAP screw. If heavy gage eave detail is found, the metal to metal LAP screw will be changed to a TEK screw. Close hem on extended eave. 104' \$1040.00 Install 3 screws at eave location in the same manner on the remainder of the building. 475' Close hem on extended eave as the panels are showing mostly a partially closed hem. 475' \$1475.00 Without the availability of an engineer report, it seems to me at the time of my inspection based on what I could see the problem could be a result of the panel being to long and the hem not properly seated onto the extended drip. I can not say when the uplift occurred, but the lack of panel hemmed on the eave does not appear to have the uplift resistance needed to perform properly.

1. **TIME OF COMPLETION:** Contractor shall commence the work to be performed under this Contract within _____ days of execution of the Contract, and shall substantially complete the work on or before _____ days after commencement of work. Contractor shall not be liable for any delay or failure of performance due to circumstances beyond its control including but not limited to strikes, labor controversies, fire, weather, casualty, acts of God, illness, injury, or general unavailability of materials from usual sources. Int. _____ Owner - Int. _____ Six Star Construction
2. **PERMITS:** Contractor, or Subcontractor hired by Contractor, shall apply for and obtain such permits and regulatory approvals as may be required by the local municipal/county government, the cost thereof shall be included as part of the Project price.
3. **INSURANCE:** So long as any of the Work remains to be completed, Contractor shall carry and maintain, or cause to be carried and maintained, in full force and effect general liability insurance. Contractor shall not be responsible for any claims arising as a result of the negligence of Owner or Owner's agents, subcontractors, or invitees.
4. **SURVEY AND TITLE:** If the Project is near the Owner's property boundary, Owner will point out property lines to the Contractor. If the Owner or Contractor has any doubt about the location of the property lines, Owner shall provide Contractor with boundary stakes through a licensed surveyor.
5. **CANCELLATION:** The Contract may not be cancelled once work is commenced except by mutual written agreement of the parties. If Contract is cancelled by Owner after execution of Contract, and prior to commencement of work, Owner shall pay Contractor 8% percent of the Contract price as liquidated damages, as well as all expenses incurred by Contractor in reliance on the Contract.
6. **CHANGES TO SCOPE OF WORK:** The scope of work and or price may be changed only by the insurance approval of new scope of work or a written instrument agreed to and signed by both parties, hereafter referred to as a "Change Order". Such agreed Change Orders shall become part of this Contract. Owner agrees to pay any increase in the cost of the Project as a result of a Change Order not associated with the insurance loss. Any incurred cost or undiscovered damages related to hail damage

loss will be submitted to the Insurance for approval and payment. In the event the cost of a Change Order is not known at the time a Change Order is executed, the Contractor shall estimate the cost thereof and Owner shall pay the actual cost whether or not it is in excess of the estimated cost.

7. LATE PAYMENT/DEFAULT: A failure by Owner to make payment for a period in excess of fifteen (15) days from the due date shall be deemed a material breach of this Contract. If payment is not made when due, Contractor may suspend work on the job until such time as all payments due to pay a late charge of 1.5% per month (18% per annum) from the date thereof, and if placed in the hands of an attorney for collection, all attorney's fees and legal filing fees shall be paid by owner.

8. DESTRUCTION AND DAMAGE: If the Project is destroyed or damaged for any reason, except where such destruction or damage was caused by the sole negligence of the Contractor or its Subcontractors, Owner shall pay Contractor for any additional work done by Contractor in rebuilding or restoring already accomplished by Contractor exceeds 20 percent of the Contract price, either the Contractor further performance under this Contract and Owner shall pay Contractor a percentage of the contract price in proportion to the amount of the work accomplished prior to the destruction or damage.

9. ASSIGNMENT: The Contract shall not be assigned and is nontransferable. Any such assignment shall be void and of no effect.

10. INTERPRETATION:

(a) Interpretation of Documents. Drawings and specifications are intended to supplement the Contract. In the event of a conflict, the specifications shall control the drawings, and the Contract shall control both. If work is displayed on the drawings but not called for in the specifications, or if the work is called for in the specifications but not displayed on the drawings, Contractor shall be required to perform the work as though it were called for and displayed in both documents.

(b) Validity and Enforceability. If any provision of this agreement should be held to be invalid or unenforceable, the validity and enforceability of the remaining provisions of this agreement shall not be affected thereby.

(c) Governing Law. This Contract and all provisions shall be interpreted and governed in accordance with the laws of the State of Texas.

11. ARBITRATION: Any dispute arising between Contractor and Owner shall be submitted to court. The expenses incurred shall be paid 50% by Contractor, and 50% by Owner. Arbitration shall be binding. Contractor has the right to waive arbitration.

12. ATTORNEYS' FEES AND COSTS: If any party to this Contract brings a cause of action against the other party arising from or relating to this contract, the prevailing party in such proceeding shall be entitled to recover reasonable attorney fees and court costs.

13. PERFORMANCE:

(a) Contractor may, at its discretion, engage subcontractors to perform work pursuant to this Contract provided Contractor shall remain fully responsible for the proper completion of the Project.

(b) All work shall be completed in a workman-like manner and in compliance with all building codes and manufacturing specifications and applicable municipal ordinances and the Laws of the State of Texas.

(c) Contractor agrees to remove all debris and leave the premises in broom clean condition upon completion of the Project.

14. WARRANTY: Contractor's warranty shall be limited to defects in workmanship within the scope of work performed by Contractor and which arise and become known within 2 years from the date of completion of the Project. For the warranty to become valid, the Contract must be paid in full. During the period of warranty, damage sustained to the Project through no fault of the Contractor is not warranted by Contractor, including but not limited to damage caused by excessive wind, ice dams, hail or preexisting construction defects. All said defects arising after 2 years, and defects in material are not warranted by Contractor. Contractor will assign to Owner all warranties on materials as provided by the manufacturer of such materials at the completion of the Project and final payment.

15. NO WORK COMMENCED: Contractor and Owner affirm that:

(a) no work of any kind (e.g., the destruction or removal of any existing improvements, site work, clearing, grubbing, draining, or fencing of the Property) has commenced or been performed on the Property prior to the signing of this Contract;

(b) no labor or materials have been ordered or furnished to or on behalf of Owner for use in such construction prior to the signing of this Contract; and

(c) no contracts or agreements (oral or written) for the furnishing of labor, materials, or services for use in the construction or improvements on the property have been executed.

16. ENTIRE AGREEMENT: This Contract constitutes the entire agreement of the parties. No other agreements, oral or written, pertaining to the work to be performed under this Contract exists between the parties. This Contract may only be modified by a written agreement signed by both Owner and Contractor.

Dear Jack Co Law Enforcement Center - Masonry,

Mooring Recovery Services respectfully submits a proposal to complete the repairs to the structure at the above referenced location, as outlined in the attached scope of work, for the sum of **\$7,174.10**. This amount includes all materials, labor, and sales tax. The pricing in this proposal is good for 30 days from submittal.

This proposal does not include code compliance items that may be required by the local building authority. If additional items become apparent that were not readily visible during our inspection, the scope of work may change. All parties will be advised of any deviation to the scope of work, prior to the start of any additional work, and adjustments will be made via approved change orders.

It is assumed that Mooring Recovery Services will have necessary access to the facility. Common utilities such as water and electrical power must be readily available in suitable quantities. Mooring Recovery Services can provide these items at an additional cost if not available.

Mooring Recovery Services complies with all Federal, State, and Local Environmental Laws, Codes, Regulations, and Permits applicable to our business and activities.

Regards,

Jay Stephenson

PAGE 26: Project Description #1 (of 3) for CHC work from 2014

Q52: Project Description #1---Expand upon your answers to question 51 about improving your CHC during the 2014 year of service. Describe the efforts made to improve an aspect of your CHC. Include the following: -- your county name;-- the specific area of improvement;-- why the improvement effort was made;-- what actions were taken to make improvements; and-- the results of those actions. Successful efforts are preferred but your efforts may not have immediate or fruitful results. Regardless of degree of success, use this answer to document your ability to evaluate CHC work, explore ways to be more effective, and learn from the results. If you were not able to make improvements in 2014, document your challenges and what improvements you'd make if you had the time, manpower, or money required.

The Jack CHC initiated a new project this year to expand its outreach to school children within the county. This project included the development of a DVD with photographs of historic sites within the county. These photos were synchronized with the verbal narratives which were used in our Annual Driving Tours. These DVD's will be provided to all 4th Grade History teachers within Jack County.

The Jack CHC expanded its membership to include a new membership level – Associate Member. These members would be people not residing within Jack County but that had a significant interest in the history of Jack County. They were expected to attend all meetings of the JCHC and would have the same privileges of membership except that of holding office and voting. They would not be included when determining a quorum for a JCHC meeting.

The JCHC joined the Jacksboro Chamber of Commerce this year. It was determined that membership within this organization would allow us to share our message and activities within the community.

PAGE 27: Project Description #2 (of 3) for CHC work from 2014

Q53: Project Description #2---Expand upon your CHC's contribution to heritage tourism efforts in your region. Refer to question 35 for heritage tourism examples. Highlight your most effective heritage tourism effort in 2014:-- your county name;-- describe event and your role in it;-- partners and community involvement in planning and/or implementation; and-- impact of the event (attendance, participation, profit, etc.)

The Jack CHC conducted its 3rd Annual Driving Tour this year and partnered with the County Commissioners, local businesses, the Chamber of Commerce and the Jack County Museum. The County Commissioners and local businesses provided funding for the Driving Tour which covered various expenses associated with the event; i.e. brochures and copies of the narrative CD which described the various locations. The Chamber of Commerce and the Museum have continued to stock and sell the CD's for the tour which raises additional revenue for the Commission. Without the assistance of those mentioned above the Driving Tour project would not have been possible. The partnerships' goal was to promote tourism within the county and again to make the public aware of the many historical sites within Jack County. Personal Thank You Notes were written to each individual entity as well as an overall Thank You which was published in the local newspaper. Additionally, copies of the CD were provided to each of our private land owners and our sponsors.

Even though the weather the day of the event was cool and wet – the attendance at this year's event was the largest we had experienced over the 3 year period.

Q54: Project Description #3---Share a project, effort, or service that shows the best of how your CHC interacts with the public. Please include your county name in the answer. Project, effort, or service must adhere to the following requirements:-- its primary association is with history/preservation; -- it has broad CHC appointee support (rather than the participation of only 1 or 2 people); and-- is an ongoing effort or one that was completed in 2014.

This year the Jack CHC conducted its first Oral History interview with one of the prominent historians within North Central Texas. Mr. Jack Loftin agreed to an interview with the JCHC which turned out to be an exemplary event. Mr. Loftin agreed to a video interview at his home to discuss questions that the JCHC had about certain events that occurred within Jack County. He has spent a lifetime exploring the rich history of Jack, Young, Archer and Wise Counties. He has documented his research in a volume of history entitled "Trails Through Archer – A Centennial History". He has personally carved markers which memorialize the occurrence at that site. Copies of the interview are located at the Jack County Museum.

Additionally, copies of previous CD narratives of JCHC Driving Tour were provided to prospective land owners who we are working with in an effort to use their property for future driving tours.

Q55: Please let us know more about your preservation successes and/or challenges.

During 2014 the Jack CHC met with a well known and established benevolent organization at the Jack County Courthouse. The objective of this meeting was to discuss the requirements necessary to apply for a preservation grant. This grant, if awarded, would be used to preserve Commissioner Court records dating back to 1857 (which was the original formation date for Jack County). There is a significant amount of effort to develop a 'winning' proposal for this possible grant. Our hope had been to submit this proposal in 2014 but the data and information required (forma constructionl bids etc) for this grant was more formidable than originally thought.
