**APPLICATION FOR PERMIT TO CROSS COUNTY ROAD
TO CONSTRUCT PIPELINE OR UTILITY**

JANICE ROBINSON, County Clerk
JACK COUNTY, TEXAS
BY _____ DEPUTY

**THE STATE OF TEXAS
COUNTY OF JACK**

NOW COMES - C & F Oil Inc., hereinafter called Company, and respectfully makes this application to the Commissioners Court of Jack County, Texas, to grant unto the Company authorization to lay a pipeline or place a utility across and under the public roads of the County of Jack, State of Texas, conditioned as follows:

1. That said Company, in consideration for the grant by said County, does hereby agree that said pipeline/utility of the following description, crossing a county road in Precinct -#4-, Jack County, Texas, at a point hereinafter indicated, will be constructed in such a manner that the construction of same will not interfere with public travel, and that no construction will begin until the Commissioner of said precinct, his agents, or employee approves said location by an on-site inspection.

DESCRIPTION AND LOCATION (Map must be attached. Aerial photos are not acceptable. Location should include GPS coordinates of crossing.):

ROW Crossing Roberts Branch 33. 22 327
Rd & FM 2190 in Act. #4 - 98. 15 380

2. The Company assures the County that it has obtained authorization, if any is required, from any landowners adjoining the crossing to cross whatever portion of their land, if any, lies beneath the roadway.
3. Such pipeline/utility shall be encased, so buried, covered, constructed and maintained as not to interfere with the use and occupancy of such roads by the public or the County. That a pipeline shall be buried to the depth of at least three (3) feet below the surface of the borrow ditch, that the pipeline/utility shall be situated no closer than three (3) feet from the edge of the roadway, and that the road will be restored at the time of construction to its original condition.
4. In the event it becomes necessary to build a Farm-to-Market Road or other road across such roads, it will become the duty of said the Company to adjust its pipeline with such construction without compensation from the County.
5. If said crossing is accomplished by crossing the traveled portion of said road, then the Company agrees it shall, that at its expense, bore under the road as its means of crossing and not cut or trench said road for a crossing. Said boring shall be at a depth of at least three (3) feet below the depth of the borrow ditch.
6. The Company shall fill and level ditches using appropriate fill material or gravel so as to return the road and/or borrow ditch in same condition as before construction so far as possible. Company shall remove any large rocks unearthed at construction at its expense.

7. The Company shall pay, at the time of application, the sum of \$500.00 for each crossing unto the Treasurer of Jack County, Texas. In the event that the permit is not granted, the application fee will be returned.

8. Said access herein granted may be assigned by the Company without further grant or procedure but grantee shall be bound by the same conditions.

9. In the event that the Company abandons its line, the Company shall remove its line from the roadway and this grant is vacated.

10. The Company is responsible to present this application to the Commissioner of the Precinct involved and obtain his signature evidencing the fact that he has seen the application and discussed the location with the Company. The Company shall then present the Application with the appropriate check to the County Judge's Office to then make arrangements for placing the matter on the Commissioners Court Agenda for approval.

11. The Company shall call the County Commissioner 48 hours prior to starting the actual work.

DATED THIS 28th day of September, 2015.

BID FOR ROCK & ROAD MATERIALS
COMMISSIONERS DEPARTMENTS

This form should be pasted to the outside of each official bid and appropriately marked.

JACK COUNTY COMPETITIVE BID PROPOSAL FORM

(Purchase of Motor Grader in Commissioner Precinct 2)

My bid is on a new 2015 or newer Road Grader:

\$ - 216,297.37 -

Manufacturer of Unit: John Deere -

Model No.: 670G -

My bid meets or exceeds minimum Proposal requirements set forth in the bid specifications/detail.

My bid includes my cashier's check in the amount of \$200 payable to Jack County for republication costs.

My bid offer is good for - 1/31/2016 - days.

Name of Bidder: RDO Equipment -

By: Brian Holland -
(Authorized Agent)

Dated: 9-10-6, 2015.

JOHN DEERE

TITLE: JACK COUNTY BID REQUEST

PROJECT: Purchase/Sale of Equipment in Commissioner Precinct 2

Date: September 3, 2015

SCOPE: Jack County is now accepting formal proposals for the purchase of one or more of the following: new Motor Grader, Model 2015 or newer, Tier 3 or 4 compliant. Minimum specifications for same are attached.

SPECIFICATIONS: Attached is a bid form to be used in submitting all bids. Supporting materials may be attached but the bid form indicating price per item **must** be properly completed to assure bid consideration.

The bid form is in two sections: an informational section (this section) and a list of the desired equipment and minimum features.

Bidders will be required to deliver with their bid a cost deposit in the amount of \$200.00 by cashier's check to cover costs of republication in the event of his/her failure to perform. Said check will be returned on delivery of the item and returned to unsuccessful bidders after bid opening.

All specifications are given to clarify the type of item requested and should not be deemed to eliminate any specific makes or models.

Vehicle at delivery will have a new inspection sticker, if required, and a minimum of 10 gallons of fuel in the tank.

Bidder shall furnish one (1) shop manuals or CD ROM shall be furnished.. Manuals/CD shall include information necessary to diagnose and repair mechanical, electrical systems, and include wiring diagrams. These must be furnished at time of delivery. (THIS REQUIREMENT SHALL NOT DELAY DELIVERY OF THE VEHICLES, BUT PAYMENT CANNOT BE MADE UNTIL ALL REQUIREMENTS ARE MET.)

TYPES OF ITEMS SOUGHT: The attached bid form lists the equipment/supplies and quantities desired and minimum specifications. All bids submitted must meet or exceed those specifications listed.

All materials must be of equivalent or better quality as shown in the specifications under **"DESCRIPTION OF ITEM."**

USE OF BID FORM: Failure to complete the County Bid Form and use the prescribed envelope may disallow a proposal for consideration. Further attachments to your County Bid Form may be made.

INVITATION TO BID
(County of Jack)

Bids will be received in the County Auditor's Office of Jack County, Texas until 10:00 a.m., Thursday, November 6, 2014, for the purchase of various goods and services for Jack County.

The types of goods and services to be purchased are one or more of the following:

Motor Grader, Model 2015 or newer, Tier 3 or 4 compliant *

** The minimum bid specifications and requirements to bid are contained in the Bid Form on file in the County Auditor's office and at the Jack County Website at <http://www.jackcounty.org/agenda/> under the title "FY 16 Motor Grader Bids."*

Bidders should use unit pricing in submitting their bids. Invoices delivered for payment will generally be paid by the second Monday of the month following receipt. A \$200 performance bond payable to the County shall be required of the bidder.

The bids will be opened at 10:05 a.m. on Thursday, November 6, 2015, by the County Auditor in the County Courtroom on the first floor of the County Courthouse in Jacksboro, Texas and awarded in the Commissioners Court's business of Monday, November 10, 2015 at the same location beginning at 10:00 a.m.

Detailed specifications may be obtained by contacting:

Lisa Perry
Auditor - Jack County
Jack County Courthouse
Jacksboro, Texas 76458

Voice: (940) 567-2663
Fax: (940) 567-5978

The County's website is located at: www.jackcounty.org.

Bids should be submitted in a sealed number 10 or smaller envelope with the proper title ("Precinct 1 Motor Grader Bid") on the **outside** of the bid envelope.

Bidders are encouraged to be present at the bid opening to defend and answer questions about their bid.

Jack County reserves the right to accept and/or reject any and all bids.

All bids must be accompanied by a completed Bid Request Form in order to be considered which may be obtained through the office of the County Auditor.

Lisa Perry
Auditor - Jack County

MINIMUM SPECIFICATIONS FOR ONE NEW MOTOR GRADER
 [Bidder should complete and submit self-assessment tool below with page preceding]

Bld specifications for interim Tier 3 or 4 compliant Motor Grader		
Compliance		Engine
<input checked="" type="checkbox"/> yes	no	Engine meets EPA Interim Tier 4 and European Union Stage III B standards
<input checked="" type="checkbox"/> yes	no	The engine shall have Dual safety air cleaner elements, radial seal, dry type
<input checked="" type="checkbox"/> yes	no	Altitude deration will not occur at altitudes less than 10,000 ft (3048 m). The deration rate above 3048 m (10,000 ft) shall be 1.5% per 305 m (1000 ft).
<input checked="" type="checkbox"/> yes	no	Engine shall have a wet-sleeve cylinder liner design for improved cylinder cooling over dry sleeve and cast-in-bore design and for improved cylinder and piston ring durability.
<input checked="" type="checkbox"/> yes	no	Fuel system shall be high-pressure, common rail
<input checked="" type="checkbox"/> yes	no	Engine bore and stroke shall be 4.66 X 5.35 in. (118 X 136 mm)
<input checked="" type="checkbox"/> yes	no	Engine shall be a turbo-charged, direct injection, four stroke, 6-cylinder diesel engine with 4 valves per cylinder.
<input checked="" type="checkbox"/> yes	no	Engine shall be electronically controlled for more efficient fuel injection and fuel burn.
<input checked="" type="checkbox"/> yes	no	Engine displacement for standard engine shall be no less than 9.0 liters (548 cu. in.)
<input checked="" type="checkbox"/> yes	no	Engine shall reach no less than SAE net horsepower in the gears 1-8: 1st 160hp, 2nd 165hp, 3rd 175hp, 4th 190hp, 5th 190hp, 6th 195hp, 7th 195hp, 8th 195hp
<input checked="" type="checkbox"/> yes	no	Standard and Optional peak engine power shall not be achieved at an engine speed greater than 2100 rpm.
<input checked="" type="checkbox"/> yes	no	Standard engine will have a minimum torque rise of 68% in all gears
<input checked="" type="checkbox"/> yes	no	Unit shall have a self-draining muffler with curved stack
<input checked="" type="checkbox"/> yes	no	Unit shall be equipped with Engine Power Management System for variable horsepower for up to 245 SAE net and shall meet IT4 standards
<input checked="" type="checkbox"/> yes	no	A jacket water heater shall be available to assist in cold weather starting.
<input checked="" type="checkbox"/> yes	no	Machine shall be equipped with electronic over-speed protection to prevent the engine and transmission from over speeding, as a standard feature.
<input checked="" type="checkbox"/> yes	no	Electronic Throttle Control (cruise control) shall be available; and shall be controlled by a switch, located on the right-hand console for resuming and decreasing throttle set.
<input checked="" type="checkbox"/> yes	no	The Electronic Throttle Control modes, set and accelerate functions, shall be located on the right console for easy access.
<input checked="" type="checkbox"/> yes	no	The engine shall have an altitude compensating turbocharger
<input checked="" type="checkbox"/> yes	no	Six Cylinder, turbocharged with air-to-air after cooler diesel engine and shall be designed and built by the manufacturer
<input checked="" type="checkbox"/> yes	no	Unit shall be equipped with engine stall prevention (ESP) as standard equipment

Cooling		
yes	no	A guard shall be available to protect the machine's transmission from debris.
yes	no	Coolant levels should be easily checked by sight gauges or overflow tank
yes	no	Engine coolant shall be Cool Guard™ II Extended Life or equivalent for temperatures to -34 F
yes	no	Air intake shall be pre-screened (3 mm perforations) standard
yes	no	The charged air cooler shall be heavy duty aluminum 10 fin per inch
yes	no	The engine shall have an air-to-air after cooling for low engine speed lugging
yes	no	Unit shall have charged air cooler with restriction sensor and in-cab restriction warning light
yes	no	Engine fan shall automatically adjust fan speed via a variable displacement hydraulic fan pump to meet engine cooling requirements to minimize power demand from the engine, reduce vehicle noise levels, improve fuel economy, and improve vehicle performance.
yes	no	Engine power shall automatically compensate for power draw of the fan system to maintain a constant horsepower available to maintain vehicle performance independent of cooling system power draw.
yes	no	Engine fan shall be able to automatically reverse and allow the operator to choose the time interval for the reversal to occur through the vehicle monitor.
yes	no	The hydraulic oil cooler shall be 10 fin per inch with vertical, spin-on filter
yes	no	The radiator shall constructed of aluminum and have 10 fins per inch spacing
yes	no	Unit shall have a coolant recovery tank provided
yes	no	Cooling system shall be isolated from the engine compartment
yes	no	Pivot and / or slide out coolers provide access for quick air cleanout of dust and debris
yes	no	A rear access door shall be provided to provide quick air cleanout of dust and debris for the engine radiator, charge air cooler, transmission cooler, axle cooler, and the hydraulic oil cooler.
yes	no	Access to engine will be open from both sides with hinged engine side shields and full access service doors
✓		Engine enclosure and daily service points shall be accessible from ground level, and grouped on the left side of the machine.
yes	no	Engine compartment doors shall be lockable without the use of external locks.
yes	no	A guard shall be available to suppress sound from the engine.
yes	no	The unit shall have a 6000 hour coolant interval from factory
yes	no	Vandal protection package shall include locking for cab doors, engine side shields (4), top tank radiator access door, engine coolant surge tank, hydraulic reservoir cap, fuel tank cap and tool box.

Power Train		
yes	no	Optional auto-shift shall be available
yes	no	Cruise control shall be standard.
yes	no	Machine shall have no drive shafts that cross over the articulation hitch.
yes	no	The transmission shall have eight forward and eight reverse speeds with built-in diagnostics
yes	no	Transmission shall have 5 working gears between 0-10.2 mph (0-16.4 km/h), for dirt applications.
yes	no	Machine shall be equipped with an electronic inching pedal for improved modulation and machine control.
yes	no	The transmission system shall have an independent oil reservoir, filtration and cooling system with 31 GPM hydraulic gear pump
yes	no	The shift pattern will be the industry standard U-shape
yes	no	The transmission shift handle shall have a neutral park brake locking position. It shall include a park start safety switch
yes	no	Transmission shall be event based shifting (EBS) or use load sensing electronic shift modulation with over speed protection
yes	no	Transmission shall have clutch overheating protection to prevent clutch failures due to excessive and overuse of the inching pedal.
yes	no	The transmission shall have rubber isolation mounting to reduce noise and vibration
yes	no	Diameter at the output end of the transmission shaft shall be no less than 2.34 in (59.5 mm)
yes	no	Transmission shall be equipped with built-in self-diagnostic capability.
yes	no	Transmission shall be isolated/resilient mounted to reduce sound and vibration.
yes	no	Transmission shall be a direct drive, power shift, countershaft type.
Axes/Brakes/Tandems		
yes	no	The brakes shall be continuously pressurized, filtered, oil cooled
yes	no	The brakes shall be internal self-adjusting maintenance free, wet multi-disk, inboard of tandem pivot
yes	no	The park brake shall have an independent oil reservoir, filtration and cooling system with 8 GPM axle hydraulic gear pump and 10 fins per inch oil cooler
yes	no	The parking brake shall be automatic, spring-applied, hydraulic released
yes	no	The unit shall have primary and secondary service brakes
yes	no	Service brakes shall be multi-disc, oil-cooled and completely sealed.
yes	no	Service brakes shall be hydraulically actuated, utilizing dual independent brake circuits.

yes	no	Service brake disc surfaces shall be grooved and carry oil between discs and plates with brakes fully applied.
yes	no	Entire braking system shall meet all requirements of ISO 3450.
yes	no	Service brakes shall provide a minimum of 3,565 in ² (23,000 cm ²) of total friction material surface area used at each of the four tandem wheels to eliminate braking loads on the power train.
yes	no	Differential Lock/Unlock shall be electro-hydraulically controlled, as a standard feature.
yes	no	Differential Lock/Unlock shall be capable of being engaged or disengaged at any time during vehicle operation without incurring damage to the differential and differential lock system. Engagement shall not be restricted or determined by vehicle speed, vehicle shifts, or tandem tractive conditions (tandems slipping).
		Differential Lock/Unlock shall be a multi-disc design.
yes	no	Differential Lock/Unlock can be selected by operator to be automatic for gears 1-4.
yes	no	Differential Lock/Unlock shall be operator controlled, via toggle switch near the right hand blade controls
yes	no	Unit shall be equipped with system capable of automatically engaging and disengaging diffloc to optimize tractive capability, while at the same time providing the operator with the ability to manually engage diffloc during any vehicle operation
yes	no	Parking brake shall be multi-disc, oil-cooled, spring-applied, hydraulically released, sealed, adjustment-free, and integrated into the transmission.
yes	no	Parking brake shall be serviceable without removing the transmission.
yes	no	Engaged parking brake shall neutralize the transmission.
yes	no	Differential housing oil filter shall have 2000 hour service replacement interval.
yes	no	The axles shall be planetary single reduction final drive
yes	no	The rear axle shall have clutch style hydraulic differential lock that can be engaged on the go to achieve maximum traction instantly when required
yes	no	The rear-axle shall be a bolt-on modular design offering easy access to differential components, improving serviceability and contamination control.
yes	no	Final drive shall be a planetary design.
yes	no	Front axle shall be an arched design for maximum ground clearance.
yes	no	Front axle oscillation shall be no less than 32 degrees total, per side 16 degrees up, 16 degrees down.
yes	no	Front wheel steering angle shall be no less than 48.5 degrees left or right.
yes	no	Front wheel spindle maintenance intervals shall be no less than 2000 hrs.
yes	no	Steering tie rod ends shall be heat induction hardened.
yes	no	Front wheel spindle bearings shall be a large diameter taper roller bearing for radial and axial load

<input checked="" type="checkbox"/>	no	Tandems shall be capable of oscillating 15 degrees front tandem up and 15 degrees front tandem down, with full machine articulation and having no interference between tandem wheel and machine structure.
<input checked="" type="checkbox"/>	no	Tandem chain pitch shall not be less than 2.0 in (50.8 mm).
		Distance between center of tandem wheels shall be no less than 60.8 in (1540 mm).
<input checked="" type="checkbox"/>	no	Maximum front wheel lean shall be no less than 20 degrees left or right.
		Hydraulic System
<input checked="" type="checkbox"/>	no	Motor grader shall have an option of up to six auxiliary control valves and control levers integrated into the main control rack and valve stack, 14 possible control levers on main control rack.
<input checked="" type="checkbox"/>	no	Hydraulic pump shall be a variable-displacement, axial-piston, load sense control, pump.
<input checked="" type="checkbox"/>	no	Left and right blade lifts shall have hydraulic float control.
		The hydraulic system shall have a 56.0 gpm (212 L/m) main hydraulic axial piston pump and 10 fin per inch oil cooler
<input checked="" type="checkbox"/>	no	Implement pump shall not be mounted under cab floor, minimizing sound and vibration.
<input checked="" type="checkbox"/>	no	A sight gauge will be provided for checking hydraulic reservoir fluid
		The hydraulic tank shall have a baffling system to improve reservoir effectiveness to prevent aeration, contaminant settling, and heat dispersion and dissipation.
<input checked="" type="checkbox"/>	no	Hydraulic system shall be fully sealed, using O-ring seals to prevent contamination and spillage.
<input checked="" type="checkbox"/>	no	The hydraulic stand-by pressure shall be no less than 1600 psi (11031 kPa).
<input checked="" type="checkbox"/>	no	Hydraulics system shall be a closed center, load sensing type, with a variable displacement, axial piston-type pump.
<input checked="" type="checkbox"/>	no	The maximum hydraulic system pressure shall be no less than 2,750 psi (18.961 kPa).
<input checked="" type="checkbox"/>	no	Implement valves shall be proportional priority pressure compensating for consistent response, when multi-functioning any combination of implement controls and independent of engine speed.
<input checked="" type="checkbox"/>	no	Lock valves shall be integrated into the main implement valve to prevent cylinder drift.
		Hydraulic valves shall not be mounted to the cab floor, to minimize sound and vibration.
<input checked="" type="checkbox"/>	no	All implement hydraulic connections shall have O-ring face seals for leak prevention.
<input checked="" type="checkbox"/>	no	The hydraulic system shall be pressure-compensated and load-sensing for reduced fuel consumption.
<input checked="" type="checkbox"/>	no	Steering capabilities shall be ISO 5010
<input checked="" type="checkbox"/>	no	Secondary steering is available
		Electrical
<input checked="" type="checkbox"/>	no	The electrical system shall be 24 volt with 100 amp alternator.

<input checked="" type="checkbox"/>	no	Machine shall have 1400 CCA extra heavy-duty batteries with 440 minute reserve capacity
<input checked="" type="checkbox"/>	no	The cab shall have a 10 amp continuous / 15 amp peak capacity (24V to 12 V) converter
<input checked="" type="checkbox"/>	no	Optional electrical corrosion-prevention protection for protection in corrosive environments such as salt handling
<input checked="" type="checkbox"/>	no	All core machine systems shall be electronically connected optimizing performance and preventing machine damage
<input checked="" type="checkbox"/>	no	LED turn signal, marker and brake lights shall be provided.
<input checked="" type="checkbox"/>	no	Unit shall be equipped with driving lights, two high and two low beam halogen headlights with front and rear turn signals, front and rear marker lights, brake lights and hazard warning lights.
<input checked="" type="checkbox"/>	no	Unit shall have indicator or warning for: high beams, seat belt, turn signals, cruise control, low alternator voltage, engine air filter restriction, engine oil pressure, engine coolant temperature, wait to start (glow plugs), hydraulic filter restriction
<input checked="" type="checkbox"/>	no	Machine shall have back-up lights and sounding alarm as standard when reverse gears are selected.
<input checked="" type="checkbox"/>	no	The monitor shall have multi-language options provided (English, Spanish, French, & Russian)
<input checked="" type="checkbox"/>	no	Unit shall be equipped with a single LCD monitor displaying gauges for: DPF cleanliness level, engine coolant temperature, transmission oil temperature, hydraulic oil temperature, rear steer articulation angle and fuel level with low level visual warning. The LCD monitor should also be capable of displaying vehicle performance data, diagnostic information, and diagnostic trouble codes.
<input checked="" type="checkbox"/>	no	Unit shall have digital readout displayed on a single LCD monitor for: engine rpm, odometer, transmission gear indicator, speedometer, hour meter
<input checked="" type="checkbox"/>	no	Starting system shall be a 24V direct electric type.
<input checked="" type="checkbox"/>	no	All light and wiper switches will be solid-state distribution
<input checked="" type="checkbox"/>	no	The in-cab switch module shall be sealed to keep out dirt, dust and airborne debris
<input checked="" type="checkbox"/>	no	The unit shall be provided with ground level master electrical disconnect switch
<input checked="" type="checkbox"/>	no	The unit shall have an electric key fuel shut-off switch
<input checked="" type="checkbox"/>	no	Electrical system shall have a master disconnect switch with a padlock provision (in addition to the ignition switch), accessible from the ground level.
<input checked="" type="checkbox"/>	no	Cab will be wired for beacon, radio and auxiliary circuit
<input checked="" type="checkbox"/>	no	The unit shall have a bypass start safety cover on the starter
Operator Station		
<input checked="" type="checkbox"/>	no	Steering wheel and control console shall be tiltable
<input checked="" type="checkbox"/>	no	The ergonomically designed steering wheel will take 5 1/4 turns (lock to lock) if the machine is equipped with manual controls. If the machine is equipped with EH controls, the steering wheel shall take 6 1/4 turns (lock to lock).

<input checked="" type="radio"/>	no	Steering wheel shall be required to operate machine.
<input checked="" type="radio"/>	no	Left and right side cab doors are standard
<input checked="" type="radio"/>	no	Cab doors shall have a hold-open clasp with a ground-level release and in addition to, a release in the cab.
<input checked="" type="radio"/>	no	Machine shall provide dual exits allowing for emergency egress should one side become obstructed
<input checked="" type="radio"/>	no	Cab shall have cup holder, personal cooler holder/storage compartment for operator's manual, with a molded floor mat
<input checked="" type="radio"/>	no	Air vents shall be provided for all front and side tinted windows
<input checked="" type="radio"/>	no	Three rearview mirrors shall be provided, one interior and two breakaway exterior mounted
<input checked="" type="radio"/>	no	AM/FM/WB Radio including 24V to 12V converter, two speakers, antenna and wiring shall be available.
<input checked="" type="radio"/>	no	AM/FM/WB Radio with CD including 24V to 12V converter, two speakers, antenna and wiring shall be available.
<input checked="" type="radio"/>	no	A rear sun shade shall be available.
<input checked="" type="radio"/>	no	The motor grader shall be equipped with low ROPS/FOPS air conditioned cab, isolation frame mounted for noise and vibration reduction
<input checked="" type="radio"/>	no	An enclosed cab with ROPS (Rollover Protective Structure) shall be provided.
<input checked="" type="radio"/>	no	FOPS (Falling Object Protective Structure) shall be provided.
<input checked="" type="radio"/>	no	Seat shall be a cloth-covered air suspension seat with, 3-inch (76 mm) retractable seat belts, with adjustments for fore-aft position, seat height, seat back angle, thigh support, and lumbar support.
<input checked="" type="radio"/>	no	A machine security system shall be available to electronically code keys selected by the user to limit usage by individuals or by time parameters.
<input checked="" type="radio"/>	no	Access to the cab shall be three anti-skid steps
<input checked="" type="radio"/>	no	Machine shall provide 3 points of contact on all areas of the machine, for mounting and dismounting.
<input checked="" type="radio"/>	no	Left and right side tandem case assemblies shall be covered with punched steel plate to provide an adequate platform for standing and walking.
<input checked="" type="radio"/>	no	Cab shall have angled floor design allowing direct visibility to moldboard.
<input checked="" type="radio"/>	no	The front glass shall be continuous and unobstructed glass from roofline to floor for visibility of the blade, heel and toe, back of the cutting edge and front tires. If choosing lower opening windows, the configuration changes slightly.
<input checked="" type="radio"/>	no	The Laminated upper front tinted window shall come with a sun shade band
<input checked="" type="radio"/>	no	The unit will come with a rear window electric defroster
<input checked="" type="radio"/>	no	Machine shall have laminated glass for the front upper window to protect the operator from shattered glass.

<input checked="" type="checkbox"/>	no	Optional decelerator pedal shall be available
<input checked="" type="checkbox"/>	no	The upper front and rear windshield washers with intermittent wipers shall be standard
<input checked="" type="checkbox"/>	no	An Operating Manual shall be provided by Seller on delivery of unit
<input checked="" type="checkbox"/>	no	A Service Manual shall be provided by Seller on delivery of unit
General Specifications		
<input checked="" type="checkbox"/>	no	Machine Wheel Base (distance from front axle to mid tandem) shall not be less than 242.6 in (6,160 mm).
<input checked="" type="checkbox"/>	no	Machine shall be designed and built by the manufacturer.
<input checked="" type="checkbox"/>	no	Transmission shall be designed and built by the machine manufacturer.
<input checked="" type="checkbox"/>	no	The fuel tank capacity shall be no less than 110 gallons (416 L)
<input checked="" type="checkbox"/>	no	Machine height to top of the cab shall not exceed 125 in (3,180 mm).
<input checked="" type="checkbox"/>	no	Turning radius will be no greater than 284 in (7,214 mm)
<input checked="" type="checkbox"/>	no	Max saleable weight of the machine shall not be more than 46,800 lbs (21 228 kg). Weight shall be the heaviest possible combination of compatible attachments, also including lubricants, full fuel tank and operator of 200 lbs (91 kg).
<input checked="" type="checkbox"/>	no	Base Machine Weight shall not be less than 35,220 lbs (15,976 kg). Weight shall include: standard machine configuration, lubricants, coolants, full fuel tank and operator of 175 lbs (80 kg).
<input checked="" type="checkbox"/>	no	Six Cylinder, turbocharged with air-to-air after cooler diesel engine and shall be designed and built by the manufacturer
Frames and Structures		
<input checked="" type="checkbox"/>	no	The angle of articulation shall be no less than 22 degrees.
<input checked="" type="checkbox"/>	no	The articulation joint shall have mechanical locking device to prevent frame articulation while servicing or transporting machine.
<input checked="" type="checkbox"/>	no	The rear frame shall have two box section channels with an integrated bumper.
<input checked="" type="checkbox"/>	no	The frame shall be ready for snow wing attachment
<input checked="" type="checkbox"/>	no	The motor grader main frame shall be designed with .89" (23mm) top and bottom plates and .63" (16mm) side plates
<input checked="" type="checkbox"/>	no	Unit will be provided with seven-position pin-locking saddle
Circle and Mold Board		
<input checked="" type="checkbox"/>	no	Shall have 14' long, 24" high by 7/8" thick moldboard available with 5/8" hardware available
<input checked="" type="checkbox"/>	no	The mold board shall be pre-stressed during manufacturing for superior strength and durability
<input checked="" type="checkbox"/>	no	The mold board will have quick change circle wear and side shift wear inserts, capable of being replaced in approximately 2 hours using only a 9/16" wrench.

<input checked="" type="checkbox"/>	no	Moldboard shall have a bank slope angle capability of at least 90 degrees to both sides.
<input checked="" type="checkbox"/>	no	Slide rails shall be hardened, continuously welded, and have replaceable bronze-alloy wear inserts top and bottom.
<input checked="" type="checkbox"/>	no	Moldboard slide rails shall be constructed of a heat-treated, high carbon steel.
<input checked="" type="checkbox"/>	no	Moldboard shall have a hydraulic tip control through a range of 42 degrees fore and 5 degrees aft.
<input checked="" type="checkbox"/>	no	Throat clearance with standard moldboard shall be at least 4.8 in (123 mm)
<input checked="" type="checkbox"/>	no	The motor grader shall have five permanent and usable tie downs for transport

JANICE ROBINSON, County Clerk
JACK COUNTY, TEXAS

BOND No. 7169629 DEPUTY

KNOW ALL PERSONS BY THESE PRESENTS:

That we, Lisa S. Perry, as Principal, and
WESTERN SURETY COMPANY, a corporation duly licensed to do business in the State of Texas, as Surety,
are held and bound unto 1 District Judge(s), his successors in office,

in the sum of 2 Five Thousand and 00/100 DOLLARS (\$5,000.00),
for the payment of which we hereby bind ourselves and our heirs, executors and administrators, jointly and
severally, by these presents.

Dated this 10th day of August, 2015.

THE CONDITION OF THE ABOVE OBLIGATION IS SUCH, That whereas, the above bounden
Principal was on the _____ day of _____, _____, duly
appointed to the office of County Auditor in and for 3 Jack
(Elected—Appointed)
County, State of Texas, for a term of Two (2) years commencing on the 10th day of
August, 2015.

NOW THEREFORE, if the said Principal shall well and faithfully perform and discharge all the duties
required of him by law as the aforesaid officer, and shall ⁴
faithfully perform the duties oof county auditor.

then this obligation to be void, otherwise to remain in full force and effect.

PROVIDED, HOWEVER, that regardless of the number of years this bond may remain in force and the
number of claims which may be made against this bond, the liability of the Surety shall not be cumulative
and the aggregate liability of the Surety for any and all claims, suits, or actions under this bond shall not
exceed the amount stated above. Any revision of the bond amount shall not be cumulative.

PROVIDED FURTHER, that this bond may be cancelled by the Surety by sending written notice to the
party to whom this bond is payable stating that, not less than thirty (30) days thereafter, the Surety's
liability hereunder shall terminate as to subsequent acts of the Principal.

Lisa S. Perry Principal
WESTERN SURETY COMPANY

APPOINTMENT OF COUNTY AUDITOR

THE STATE OF TEXAS

COUNTY OF JACK

OCT 12 2015

ROBINSON, County Clerk
JACK COUNTY, TEXAS

DEPUTY

It appearing that the present term of office as County Auditor of Jack County, Texas, has been vacated due to the former County Auditor's retirement, and that the appointment of an Auditor for the ensuing two-year term will now be necessary, and,

It appearing that Lisa Perry is qualified to perform the duties of that office, and a proper person for the office, she is hereby appointed for a two-year term beginning on the 1st day of October, 2015, and terminating on the 30th day of September, 2017.

It further appearing that the duties of the office County Auditor reasonably requires the appointment of an Assistant Auditor; and that Kim Dungan is qualified for such appointment, she is hereby appointed Assistant Auditor of Jack County for the said two years, unless terminated prior to the expiration of said two-year period by the said District Judge, or by the County Auditor, or by her own resignation.

Signed this the 2nd day of October, 2015, but effective October 1, 2015.

KNOW ALL PERSONS BY THESE PRESENTS:

BOND No. 71705879

That we, Kim M. Dungan, as Principal, and
WESTERN SURETY COMPANY, a corporation duly licensed to do business in the State of Texas, as Surety,
are held and bound unto Jack, his successors in office,

in the sum of Five Thousand and 00/100 DOLLARS (\$5,000.00),
for the payment of which we hereby bind ourselves and our heirs, executors and administrators, jointly and
severally, by these presents.

Dated this 14th day of September, 2015.

THE CONDITION OF THE ABOVE OBLIGATION IS SUCH, That whereas, the above bounden
Principal was on the _____ day of _____, _____, duly
appointed to the office of Assistant County in and for Jack
(Elected—Appointed) Auditor
County, State of Texas, for a term of 2 years commencing on the 1st day of
October, 2015.

NOW THEREFORE, if the said Principal shall well and faithfully perform and discharge all the duties
required of him by law as the aforesaid officer, and shall ⁴
Faithfully perform the duties of office.

then this obligation to be void, otherwise to remain in full force and effect.

PROVIDED HOWEVER, that regardless of the number of years this bond may remain in force and the
number of claims which may be made against this bond, the liability of the Surety shall not be cumulative
and the aggregate liability of the Surety for any and all claims, suits, or actions under this bond shall not
exceed the amount stated above. Any revision of the bond amount shall not be cumulative.

PROVIDED FURTHER, that this bond may be cancelled by the Surety by sending written notice to the
party to whom this bond is payable stating that, not less than thirty (30) days thereafter, the Surety's
liability hereunder shall terminate as to subsequent acts of the Principal.

Kim Dungan Principal
WESTERN SURETY COMPANY
By Paul T. Brunat
Paul T. Brunat, Vice President

ACKNOWLEDGMENT OF PRINCIPAL

APPOINTMENT OF COUNTY AUDITOR

OCT 12 2015

THE STATE OF TEXAS

COUNTY OF JACK

ROBINSON, County Clerk
JACK COUNTY, TEXAS

DEPUTY

It appearing that the present term of office as County Auditor of Jack County, Texas, has been vacated due to the former County Auditor's retirement, and that the appointment of an Auditor for the ensuing two-year term will now be necessary, and,

It appearing that Lisa Perry is qualified to perform the duties of that office, and a proper person for the office, she is hereby appointed for a two-year term beginning on the 1st day of October, 2015, and terminating on the 30th day of September, 2017.

It further appearing that the duties of the office County Auditor reasonably requires the appointment of an Assistant Auditor; and that Kim Dungan is qualified for such appointment, she is hereby appointed Assistant Auditor of Jack County for the said two years, unless terminated prior to the expiration of said two-year period by the said District Judge, or by the County Auditor, or by her own resignation.

Signed this the 2nd day of October, 2015, but effective October 1, 2015.

RESOLUTION ON COMMISSIONERS COURT BUDGETARY RESPONSIBILITY

WHEREAS, the Texas Constitution was carefully drafted to divide governmental powers between the legislative, executive, and judicial branches;

WHEREAS, the Commissioners Court is constitutionally and statutorily charged with the responsibility to determine the county budget and the funding necessary for county departments;

WHEREAS, Texas statutes, including the Texas Local Government Code and the Texas Government Code, provide an orderly process for the creation and compensation of county employees, including judicial department positions;

WHEREAS, Senate Bill 1913 (codified as Section 75.401, Government Code) maintains the proper constitutional separation of powers, securing necessary staff for the judiciary while preserving the authority of the Commissioners Court to determine the creation and compensation of county positions through the budget;

WHEREAS, the Commissioners Court of Galveston County has properly implemented the provisions of S.B. 1913 in the county budget;

WHEREAS, certain members of the judiciary have refused to acknowledge the constitutional responsibility of the Commissioners Court and continue to litigate this matter;

NOW, THEREFORE, be it Resolved that the County Judges and Commissioners Association of Texas does hereby urge that all parties recognize the proper budgetary responsibility of the Commissioners Court to determine the creation and compensation of county positions and implement the provisions of S.B. 1913 without further delay or litigation.

IN WITNESS WHEREOF, I have hereunto set my hand this 13th day of April, two thousand fifteen, and of the Independence of the United States of America the two hundred and thirty-ninth.

PASSED AND APPROVED this 12th day of October, 2015.

STATE OF TEXAS §
COUNTY OF JACK §**ORDER RESTRICTING OUTDOOR BURNING**

WHEREAS, the Texas Forest Service has determined that drought conditions exist within the County;

WHEREAS, the Commissioners Court has also determined that circumstances present in all or part of the unincorporated area of the county create a public safety hazard that would be exacerbated by outdoor burning;

IT IS HEREBY ORDERED by the Commissioners' Court of Jack County that all outdoor burning in Jack County for 90 days from the date of adoption of this order, is prohibited unless the restrictions are terminated earlier based on a determination made by the Texas Forest Service or this Court.

This Order is adopted pursuant to V.T.C.A. Local Government Code §352.081 and other applicable statutes.

This Order does not prohibit outdoor burning activities:

(1) related to public health and safety that are authorized by the Texas Natural Resource Conservation Commission for:

(A) firefighter training;

(B) public utility, natural gas pipeline, or mining operations; or

(C) planting or harvesting of agriculture crops; or

(2) that are conducted by a prescribed burn manager certified under Section 153.048, Natural Resources Code, and meet the standards of Section 153.047, Natural Resources Code.

Fort Richardson State Historical Park is granted an exemption from this order on the following conditions:

(1) All bonfires are prohibited;

(2) All campfires are prohibited except those in contained in metal fire rings and none are permitted if winds are or are predicted at 20 mph or greater or relative humidity is less than 30% .

(3) No fire allowed under this exemption shall be left unattended;

(4) Any fire allowed under this exemption shall be attended with appropriate fire safety equipment such as a shovel and water hose or bucket;

(5) Charcoal fires will be allowed in fire rings or metal cook boxes; and,

(6) Charcoal used in said fires shall be of the type which is manufactured to contain sufficient lighting fluid to ignite the charcoal.

Welding is allowed by commercial/professional welders under the following guidelines only:

(1) A spotter is required for each welder, each cutter, each grinder, and for any activity that causes or may cause a spark.

(2) A perimeter around the welding area shall be established of a radius of 25 feet and clear of vegetation, if possible, and kept wet. The welding perimeter must be three times the height of the actual welding. Example: if the welding is occurring ten feet off the ground, a perimeter of thirty (30) feet radius must be protected.

(3) A minimum of 100 gallons of water must be available on site.

- (4) A minimum of one (1) water pressure fire extinguisher per spotter is required.
- (5) If the perimeter cannot be cleared of vegetation, proper precautionary measures must be taken (Example: protecting brush, etc, by utilizing fire resistant tarps).
- (6) Welding in an enclosed area or underground is acceptable.
- (7) No welding is permitted if winds are 20 mph or greater or relative humidity is less than 30%.
- (8) Welder or Company conducting welding operations must prior to activities file with the Jack County Sheriff's Office proof of effective liability insurance or be bonded in an amount of at least \$300,000.
- (9) Prior to ANY welding activity a phone call shall be placed by the welder or company conducting welding operations to the Jack County Sheriff's department relaying the location of the project, cell phone for contact person, name of party responsible, and name of welder.

In accordance with V.T.C.A. Local Government Code §240.906(h), a violation of this Order is a Class C misdemeanor, punishable by a fine not to exceed \$500.00.

The County Judge may rescind this Order upon a determination that the circumstances that required the Order no longer exist

ADOPTED this 12th day of October, 2015.

Memorandum -- County Judge's Office

Date: 23 October, 2015**To:** County and District Clerks, Juvenile, and Law Enforcement Agencies in Jack County**From:** Mitchell G. Davenport, County Judge**Re:** Relocation of Juvenile Office and Revision of Standing Order

As many of you are aware the County is doing certain repair and maintenance in the courthouse offices. Some offices are relocated and then returned after that office facility is finished.

A couple of weeks ago in that regard, the Commissioners Court has relocated the Juvenile Probation Office from Room 103 in the basement to Room 304 (Nathan's old office). This will not be a temporary relocation. This will place all probation activities in the same area of the building and will no doubt facilitate services.

Appropriate measures are being taken to adjust appropriate security systems in place.

I have signed a revised Standing Order on locations designated for juvenile detention or interrogation. The Clerks are directed to keep a copy of the attached order on permanent display in their offices.

Thank you for your cooperation in this. Let me know if you have any questions.

JANICE ROBINSON, County Clerk
JACK COUNTY, TEXAS

BY _____ DEPUTY

DISTRICT COURT OF JACK COUNTY, TEXAS

WHEREAS, the County Court of Jack County, Texas, has been designated to act as a Court in juvenile proceedings in Jack County, Texas;

WHEREAS, the County Court is empowered under Section 52.025 of the Texas Family Code to designate a place or facility where juveniles may be taken for detention and/or interrogations;

THEREFORE, the Court does, upon its own motion, order that juveniles taken into custody under the provisions of the Texas Family Code shall for the purposes of detention and interrogation be taken to:

A. the following offices located in the Jack County Courthouse, Jacksboro, Jack County, Texas:

- (1) Rooms 205, 207, 302, 304, 307, 309, and 311 of the County Courthouse;
- (2) Training Room at the Jack County Law Enforcement Center;

B. the following offices located in the Offices of the City of Jacksboro in Jacksboro, Texas:

- (1) Police Chief's Office, City Police Station;
- (2) Patrol Watch Office, City Police Station;
- (3) Municipal Judge's Office, City Hall; and,

C. the offices of the Principal or Assistant Principal, if any, located at the respective public school facilities whether Elementary, Junior High, or High School located in Jacksboro, Bryson, or Perrin, Texas.

Signed this the 22nd day of October, 2015.
