City/State/Zip: Houston, TX 77002 Phone: 281-921-9775

Name of Representative/Agent: Brandon Westlake

Representative/Agent E-Mail: bwestlake@cwlp.net Phone: 713-266-4456 x3

Proposed Name for Reinvestment Zone: Lasso Wind RZ

1. Please state the approximate current ad valorem tax value of the real property within the proposed reinvestment zone: \$ 2,698,120.
2. Please attach a map of the proposed Reinvestment Zone, with sufficient detail to locate the reinvestment zone in relation to the highways or county roads that will access the zone, with sufficient contrast to make publication in a newspaper generally legible at a scale of not more than ¼ page, and contain an "inset" map locating the proposed reinvestment zone within the county.
3. Please provide a list of the properties that will be located within the proposed reinvestment zone, by Ad Valorem Parcel ID Numbers utilized by the County Appraisal District, and the current registered owner of each such parcel.

See attached Exhibit A.

4. Please provide a general description of the nature of the proposed project, the types of infrastructure that will be constructed or installed within the proposed reinvestment zone, and a statement as to what improvements will be subject to the abatement and any exclusions from abatement the applicant expects to construct or install within the proposed reinvestment zone. Please state the Applicant's best estimate of the taxable value of all such improvements. \$ \_\_\_\_\_

Lasso Wind, LLC (Lasso Wind) is requesting a tax abatement from Jack County for the Lasso Wind Project (the "Project"), a proposed wind powered electric generating facility in Jack County. We are requesting that Jack County create a Reinvestment Zone for this project.

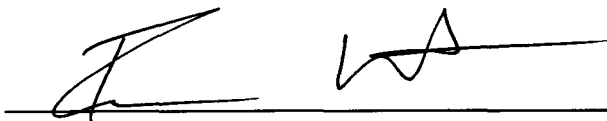

The proposed Project is anticipated to have a capacity of approximately 240 MW located in Jack County. The exact number and location of wind turbines will vary depending upon ongoing siting analysis, manufacturer's availability, prices, and the megawatt generating capacity of the Project when completed. The current expectation is the installation of Siemens Gamesa wind turbine of between 2.0 MW and 4.0 MW a piece, in sufficient number for a project size of 240 MW, with all turbines located in Jack County. The Applicant requests a tax abatement for all facilities and equipment installed for the Project, including; wind turbines, towers, foundations, roadways, meteorological towers, collection system, communication system, electric switchyard, electric transformers, transmission line and associated towers, interconnection facilities and all eligible ancillary and necessary equipment. The estimated Taxable Value in Year 1 of the project is \$207,360,000 and would depreciate down to \$90,907,000 in the first year after the Abatement Period expired.

5. Please state the number of temporary jobs that will be generated by the proposed project, and the number of permanent jobs that will be created. In relation to job creation, please state the expected duration of temporary jobs within the county, and the anticipated annual payroll for permanent jobs. 350-400 temporary workers during construction period of approximately 12 months and 3 permanent jobs at an estimated minimum of \$46,635 per year.
6. Please identify any incentives the applicant will make available to attract and retain permanent residential employees to construct, maintain or operate the resulting facilities within the proposed reinvestment zone. The applicant will offer competitive pay with attractive benefit packages to incent permanent employees to operate and maintain the project.
7. Please state whether or not the applicant intends to seek a reduction in the initial ad valorem tax basis by deducting any federal tax credits from the cost basis or value of the proposed improvements for purposes of county ad valorem taxation in the first year such improvements will be taxable by the county. The project would be seeking the Federal Production Tax Credit which does not affect the value of the Project when using the Cost Approach Method.
8. Please state the estimated tax revenues the county can expect to receive during each year of any requested abatement, and the method by which this revenue is calculated. Please state the remaining useful life of the proposed project at the conclusion of the abatement period. Please attach a spreadsheet to your application with this calculation, showing the formula used in the calculation. This spreadsheet should show expected

revenues to the County both during the requested abatement period, as well as for each subsequent year after the expiration of the abatement period for the duration of the expected useful life of the facilities constructed or installed within the proposed reinvestment zone. See attached schedule of Estimated values and tax amounts (Exhibit B)

9. Please provide a comparison between any proposed abatement of taxes based upon a percentage of abatement and resulting PILOT (Payment in Lieu of Taxes) that might result from the county approving the requested abatement. The project is proposing a PILOT payment of \$1,100/MW of nameplate capacity installed.
10. Please provide a time schedule for undertaking and completing the planned improvements. This timeline should include an anticipated commencement of construction, commercial operations commencement date, and date of first payment of any PILOT or ad valorem tax payment. Full construction of the Project is anticipated to begin in Q1 of 2024 with completion by December 31, 2024. The first PILOT payment would be for the 2025 Tax Year.
11. Please provide certification from the County Appraisal District that any property owned by the Applicant is ad valorem tax obligations. N/A
12. Please attach a non-refundable application fee of \$1,000.00 to the completed application.
