Subject: Roller Shelves

Hi Vanessa,

I've broken this down into 2 quotes.

1) 25 Sections stackable roller shelves. 10 sections 6 high and 15 sections 4 high. Pricing for this is \$16,981.00. That includes freight and installation. As you're very aware of with diesel prices and other problems freight can change on a sometimes daily basis. As of now freight for this job is \$2,476.00. Since it takes 3-4 months to ship this the freight charges could change.

2) Move 17 sections of roller shelving and approximately 544 books from basement to 4th floor and move tri-fold cabinets. \$915.00. We would like to do the move and new file system at the same time if possible but not mandatory.

Thanks and let me know if you have any questions.
