

COUNTY CLERK – JACK COUNTY, TEXAS _____ O’CLOCK _____ M
PRESERVATION AND RESTORATION RECORDS PLAN
FY 2025

SEP 16 2024

VANESSA JAMES, County Clerk
JACK COUNTY, TEXAS

BY _____ DEPUTY

EXECUTIVE SUMMARY

The purpose of this document is to define the restoration and preservation, digital capture, storage, retention, and management of archived records belonging to the County Clerk’s Office. Records maintained in the County Clerk’s office have been identified to fall under the category of “Preservation and Restoration Plan” which will provide reproduction and archiving of such records and assist in maximizing storage space and making records readily available for optimum viewing. The County Clerk intends to follow guidelines set by the Texas State Library and Archives Commissioner for the preservation of such records.

GOAL

The goal is to reproduce and archive all documents, regardless of type, as efficiently as possible. The County Clerk’s Office is also looking at restoring records, suspending or reducing deterioration of public records, improving the public access to these documents in a manner that reduces the risk of deterioration, and possibly reducing or eliminating paper documents.

SCOPE

The scope of this document includes the following:

- *All County Clerk records filed at the Jack County Courthouse
- *Plans to restore and preserve records with significant historical value
- *Plans are to improve public and governmental access and provide an archive for records that have or will be imaged.

This document addresses the restoration and preservation needs of the County Clerk Records Archive. No other departments are addressed.

FUNDS

Currently, the funds available for projects are:

- 072-303-206 Records Archive Account - \$181,282.94 – 6/2024
- 078-303-903 Records Management Account and
- 2020 County Records Preservation - \$169,742.70 – 6/2024

Please see the attachment with previously approved estimates on the indexing project that will be deducted from these totals.

SECTION ONE: RECORDS CURRENTLY IN THE REPOSITORY

INVENTORY

Currently, the County Clerk’s office has many docket books and files that are related to civil and criminal actions that have occurred throughout the years. Vital statistic files dating back many years include birth, death, and marriage records. Deed Records, Miscellaneous Records, Survey, Military, Brand, Probate Minutes, Deed of Trust, and Commissioner’s Court Minutes some dating back to 1857.

SECTION TWO: RESTORATION AND PRESERVATION

PERMANENT RECORDS

After reducing and/or reproducing these records, the County Clerk plans to utilize the space for the growing number of cases occurring daily. The reproduction will allow better access to the records and will alleviate overcrowding of storage rooms and archive facilities by assisting in eliminating items that are not required to be maintained permanently. Historical Records will be imaged and made available online when applicable.

SECTION THREE: FUTURE PLANS

Records are currently imaged by case files and stored off-site by our software provider. This assists in archiving the imaged records and provides the capability of viewing them online 24/7 for approved users.

At this time we have fully indexed Deed Records online dating back to 1989. The ongoing project to have the records from 1989 back to 1856 fully indexed has concluded, these fully indexed documents are currently being loaded onto our software by LGS. However, Terralogic was unable to index the handwritten books which is 60 of the earliest books. These we will have to index in-house.

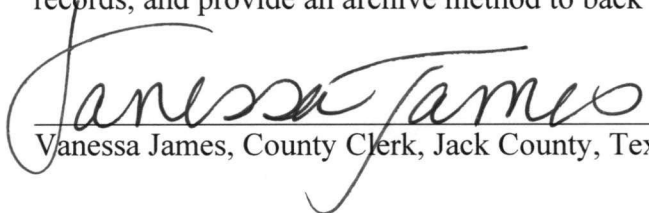

Currently, our Criminal Records are digitized back to 1998, Probate cases back to 1960, and Civil cases back to 2000. Our Local Government Solutions software has an ongoing service that makes available case files and images for judges, court staff, and the public.

All Birth Records have been digitized in-house, we are now working on Delayed Birth Records. We have begun and will continue adding original Death and Birth records to our software so they will be more quickly and easily accessed by staff for issuing certified copies to qualified applicants.

We have digitized all plat records and continually add plats as they are filed.

PUBLIC AND GOVERNMENTAL ACCESS

The County Clerk's Office intends to make older public records more accessible on the computer and by index, at a future date. This will allow additional access to County Clerk records, and provide an archive method to back up our imaging system.

Vanessa James, County Clerk, Jack County, Texas

After the indexing project's estimated cost has been deducted the Records Archive and Records Management accounts below is approximately what the balances will be:

Records Archive Account: \$108,525.61

Records Management Account and County Records Preservation: \$49,502.70
